

There are

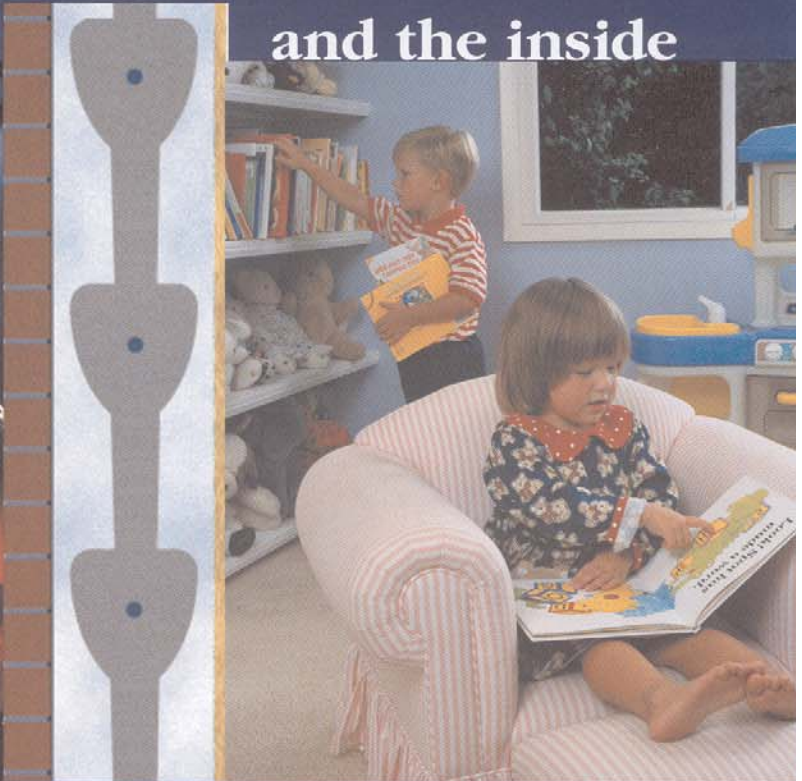

Two Sides

to every story...

the outside

and the inside

And in between, a PolySteel® wall.

You can insulate your family from whatever's outside with the PolySteel Building System.

Shelter them from heat and cold *and* from high utility bills thanks to PolySteel's superior energy efficiency.

Keep termites out with PolySteel's PerformGuard® barrier. **Protect** your family from severe winds in excess of 300 miles per hour. **Enjoy peace and quiet**

with a sound rating of 48. **Breathe easier**, because PolySteel reduces air infiltration by 75%, eliminating drafts and halting the invasion of dust and pollen.

PolySteel combines the strength of concrete and reinforced steel with the insulating comfort of polystyrene foam to create the **best building material** you can use for the exterior walls of your new home.
